Settle Down

Steve Forbert

If I seem a little crazy well it's just because I am
But that ain't no call to talk behind my back
Sometimes I go derailin' when it's chaos in my mind
But all in all my wheels are mainly on the trackSo won't you settle down settle down?
Baby love, my baby love
Oh don't quit your faith in meWell I hear you when you whisper and I've seen your nervous eyes
I've known your fear and held your doubtful hand
You're judging way too soon you're underestimating me
Sometimes I rock a bit but I can standSo won't you settle down, settle down?
Baby love, my baby love
Hey don't quit your faith in meOut on the highway out on the cold road
Some lonesome losin' rounder wears a frown
And I could be there without a notion
If not for all the love you've brought aroundHey, if I'm caught up in a whirlwind babe I know
I'll make it through
I've seen that spinning power rise an' fall
I can ride it sailin' higher I can ride it comin' down
It's a natural kind of cycle babe that's allSo won't you settle down, settle down?
Baby love, my baby love
Ooh don't quit your faith in me
