# Endless Harmony

## The Free Design

Ocean lovers who like to harmonize
They're all cousins friends and brothers
And they make their mamas cry
They're record-making, heart-breaking just west coast boys
What I know it's a beginning of an endless harmony
Striped shirt freedom brave new heroes go out on the road
Where there's mid-sixties screaming
And that nighttime holiday and scheming while a lifestyle turns to gold
Music's growing and vibrations showing

But what's it all mean I know it means there's an endless harmony
And we sang God bless America
It's a land where we tour
She takes great care of us
And people love for where we sing
We sing doot doo doot, doot doo doot
Doot doo doo doo
