

# Endless Harmony

## The Free Design

Ocean lovers who like to harmonize  
They're all cousins friends and brothers  
And they make their mamas cry  
They're record-making, heart-breaking just west coast boys  
What I know it's a beginning of an endless harmony  
Striped shirt freedom brave new heroes go out on the road  
Where there's mid-sixties screaming  
And that nighttime holiday and scheming while a lifestyle turns to gold  
Music's growing and vibrations showing

But what's it all mean I know it means there's an endless harmony  
And we sang God bless America  
It's a land where we tour  
She takes great care of us  
And people love for where we sing  
We sing doot doo doot, doot doo doot  
Doot doo doo doo
