

Suck It and See

Grim Reaper

This lady in black came to me and she said
"Would you like to come home to my room?"
I resisted all temptation but I took her invitation
I hope that she don't make me fall too soon
She said, "Suck it and see", it was all new to me
All in a young child's dream
She said, "Suck it and see", can't be happening to me
But it's good if you know what I mean
Suck it and see I'm lying in her arms, taking all her charms
She took my heart and burned it to the core
Taking all she could teach 'cause it was in my reach
I just wanted more and more and more
She said, "Suck it and see", it was all new to me
All in a young child's dream
She said, "Suck it and see", can't be happening to me
But it's good if you know what I mean
Suck it and see
