Your Cut Feather

Project Pitchfork

oh woman its such a shame
you are giving life like earth
thats why we treat you the same
oh woman youre not to blame
like earth you are giving us love
thats why we treat you the sameoh girl dont listen to men
when they tell you you shouldnt
but they tell what you can
girl you are the missing part
of this society which is falling apartoh human when will you be
like the deeper meaning of reality
oh human dont you see
you are ignoring one part of humanitymen what do we do
when we tell a direction
then its true
men what will it be
if we would change
the earth to normality
