

# Back to School

[Ace Frehley](#)

Hot summer's gone and you're still ready to burn  
Back from vacation and you're eager to learn  
Anticipation mixed with desire  
No one can stop you 'cause you're heart's on fire  
Back, back to school  
I'll teach you all the things that you never knew  
You're going back, back to school  
I'll give you everything and you know it's true  
'Cause it's back to school for you  
Now I'm the teacher but I have no degree  
Forget the rest I'll teach you biology  
Now just relax and you'll do your best  
Concentrate and you'll pass the test  
Back, back to school  
I'll teach you all the things that you never knew  
You're going back, back to school  
I'll give you everything and you know it's true  
'Cause it's back to school for you  
I'll be your teacher and you'll be my pet  
Put down your notebook 'cause there's no written test  
Graduation is what you deserve  
You'll have no problem 'cause I grade on a curve  
Going back, back to school  
You're going back, back to school  
You're going back, back to school  
You're going back  
You're going back, back to school  
I'll teach you all the things that you never knew  
You're going back, back to school  
I'll give you everything and you know it's true  
You're going back, back to school  
Back, back to school  
Back to school, back to school  
You're going back to school  
Back to school, back to school  
Back to school, you're going back to school
