I Used To Dance With My Daddy

Datarock

Put your hands on the phone
Dial the number
See that you're free to be carrying on
When you're gone
We'll succumb
And let the rhythm take control and move along
Alright!
It's a thing that you sing when you don't want to ring
One of the people that you see downtown
Who's a real clown
You wanna go to the show
Although it's a slow mo
I used to dance with my daddy
Put your hands on the phone
Dial the number
See that you're free to be carrying on
Race with the pace of the people who stays
That's a base that always OKs
Alright!
It's a thing that you sing when you don't want to ring
One of the people that you see downtown
Who's a real clown
You want to go to the show
Although it's a slow mo
I used to dance with my daddy
