

Dance All Night

The Dirty Heads

You better dance all night
You gonna make it right
Until we all fall down
We all fall down cause its you that Ive been missing You better dance all night
You gonna make me right
Until we all fall down we all fall down
Cause its you that Ive been missing Top of the world, Peak of my high
Don't look now I just took flight
Apocalypse now, we own the night
Got two choices surf or fight
Skate or Die, sink or swim
Crash or fly, look within
I do not let this bullshit faze me
I see lights and I go crazy
Cool is the wind, Dark is the sky
Black bird sings in the dead of the night
Take these broken joints and get high
Take your worries, kiss em goodbye
Tonight has been so amazing,
I see you and I go crazy
You put me into this trance,
I hear music, let's dance We aint gon stop now, dancing on top
We aint gon stop now, no You better dance all night
You gonna make it right
Until we all fall down
We all fall down cause its you that Ive been missing You better dance all night
You gonna make me right
Until we all fall down we all fall down
Cause its you that Ive been missing Be bold like a leopard, fierce like a lion
Like an eagle flyin' across the sky
And they wonder why
When they ponder on the creation of his majesty
I believe in we
I believe in you and me as we swim upon the ocean
Swim on the sea
Won't you please come with me running up into the hills
And the trees we can fall down through the tumbleweeds
I will be our king, you will be my kingdom
I will promise to sing dem You better dance all night

You gonna make it right
Until we all fall down
We all fall down cause its you that Ive been missing You better dance all night
You gonna make me right
Until we all fall down, we all fall down
Cause its you that Ive been missing
You know were gonna act like theres one last day
And you dont have to ask cause you know
Im gonna say make it one more round, yeah one more round You know were gonna act like theres one last day
And you dont have to ask cause you know
Im gonna say make it one more round, yeah one more round You better dance all night
You gonna make it right
Until we all fall down
We all fall down cause its you that Ive been missing You better dance all night
You gonna make me right
Until we all fall down, we all fall down
Cause its you that Ive been missing
