

Legionnaire

Van Damme

Honey I know we've seen bad weather
But what've we lost that's not already gone?

I'm a legionnaire of forces
Climb the walls and burn it down
Fall like dominos

I'm a legionnaire of forces now
(Keep it down now)

So meet me in the wilderness

I'm always on your side
To be with you

Honey I know we've seen bad weather

But what do you know?

It's already gone

We'll watch that empire fall to pieces

A paper tiger ringleader
Fall like dominos

I'm a legionnaire of forces now
(Keep it down now)

So meet me in the wilderness

You and I were made for something more

(Keep it down now)

So cast a light and clear me out

I'm always on your side
To be with you
