

Last to Know

112

Lately, I have been questioning if
What we have is lost, yeah
I heard it in your voice when we were fighting
Tell me where it's gone? Girl, I thought that we could talk about whatever
Any problem that we had we'd always work it together
Did I say or is there something I've done wrong
Baby, I should know, but I don't, still I wanna make it better
If something's hurting you then, girl, let me know
If it's me then baby tell me, oh
You don't have to ignore, you don't want this anymore
Just don't let me be the last to know
Honestly you got me torn and I'm so confused
'Cause nowadays you got a new attitude
And you barely answer my calls and when I finally get through
You rush of the line like I don't matter to you
Was it something I said, girl, what did I do
If there's a problem it ain't hard for us to work it out
There's no difference from what we've been through before
I can't move on and I won't until we make it better
If something's hurting you then, girl, let me know
If it's me then baby tell me, oh
You don't have to ignore, you don't want this anymore
Just don't let me be the last to know
I never believed we go this far
Don't you let people tell what we have our past
If something's hurting you then, girl, let me know
If it's me then baby tell me, oh
You don't have to ignore, you don't want this anymore
Just don't let me be the last to know
If something's hurting you then, girl, let me know
If it's me then baby tell me, oh
You don't have to ignore, you don't want this anymore
Just don't let me be the last to know
If something's hurting you then, girl, let me know
If it's me then baby tell me, oh
You don't have to ignore, you don't want this anymore
Just don't let me be the last to know
Last to know, oh oh, oh baby
Be the last to know, yeah
Lately, I have been questioning if
