

For You from Me

[Jon McLaughlin](#)

Unexpected
Understatement of the year
And that's for sure
Who'd of thought that
I'd be standing at your doorIt's just the way you say my name that throws me
And all the windows of my past are closing
And everything that you seeIs for you from me, I'd give it away so easily
Never stopped to look at what's behind
For you from me and everything we want will be
Holdin' us together tonight, tonightUnexpected
I'm not used to chasin' dreams
And catchin' them
All of a sudden
I'm a winner in the endI'm used to every door I open closing
Always makin' sure I'm not supposing
I can't believe how real they hereFor you from me, I'd give it away so easily
Never stopped to look at what's behind
For you from me and everything we want will be
Holdin' us together tonightWe will never fall
We'll defy the laws of this love
Rulers of our own
And that's the way I feel
Stupid but for real
All that I amIs for you from me, I'd give it away so easily
Never stopped to look at what's behind
For you from me and everything we want will be
Holdin' us together tonightFor you from me, I'd give it away so easily
I never stopped to look at what's behind
For you from me and everything we want will be
Holdin' us together tonight, tonight
