

We Found Us

Tokio Hotel

Fire in the sky, shadows unite
The world is outside, we hide
Beats fight a war
Close the door, close the door
Searching for the cure on the floor We found us, us
In this club, club
We found us, us
It hurts but it feels right We found us, us
In this club, club
We found us, us
It hurts but it feels right Tears falling down
Underground, underground
Following the sound of the crowd
Reflection of the light
In your eyes, in your eyes
We are rising high, tonight! We found us, us
In this club, club
We found us, us
It hurts but it feels right We found us, us
In this club, club
We found us, us
It hurts but it feels right We don't care, we don't care
We don't care, we don't care
We don't care, don't care
It hurts but it feels right We found love in this club tonight
We found love in this club tonight
We found love in this club tonight
Girls and girls and boys and boys We found us, us
In this club, club
We found us, us
It hurts but it feels right We found us, us
In this club, club
We found us, us
It hurts but it feels right
