

# Temptation

Greyson Chance

[Verse 1]

Hey, you're old familiar ways  
I've been down your road before You, such a beautiful kiss  
Of course I want more... It can all come falling down at the hands of fate  
Who am I to decide where the heart lies, [Chorus]

Don't let me down, I'm happy now  
Temptation don't come back around You seem to come  
She's not the one

But she might be... [Verse 2]

Hey, let's take another drive  
We can keep on going if you like Hey, let's take it easy  
It's all so perfect and it's too early to tell  
But I know that old temptation too well [Chorus]

Don't let me down, I'm happy now  
Temptation don't come back around You seem to come,  
She's not the one,  
But she might be. [Bridge]

You're the kind of girl that I've been searching for  
I think but I shouldn't be... so sure  
Who am I to question it.. no more No more, no more [Chorus]  
And don't let me down...

I'm happy now,  
Temptation don't come back around You seem to come  
She's not the one  
But she might be
