

# Wicked

## Chester See & Andy Lange

Don't be fooled by the way she moves  
You're dancing with the devil in the pale blue moon  
She's wicked  
Ooh  
Turn and run before it's too late  
Or six feet underground will be your resting place  
She's wicked  
Ooh  
There's silence in the her steps  
No beating in her chest  
Without a sound  
You know you've been found  
When she's breathing down your neck  
She's meaner than mean  
Crueler than cruel  
You can't escape you're never safe  
She'll play you for a fool  
She's colder than cold  
Most fearfully feared  
Your time is up  
You're out of luck  
When she whispers in your ear  
She's wicked  
She's wicked  
Cut your losses, give up now  
She won't be so gentle when she takes you down  
She's wicked  
Ooh  
Say your prayers if you feel the need  
Just don't waste your breath on her sympathy  
She's wicked  
Ooh  
There's silence in her steps  
No beating in her chest  
Without a sound  
You know you've been found  
When she's breathing down your neck  
She's meaner than mean  
Crueler than cruel

You can't escape you're never safe  
She'll play you for a fool  
She's colder than cold  
Most fearfully feared  
Your time is up  
You're out of luck  
When she whispers in your ear  
She's wicked  
She's meaner than mean  
Crueler than cruel  
You can't escape you're never safe  
She'll play you for a fool  
She's colder than cold  
Most fearfully feared  
Your time is up  
You're out of luck  
When she whispers in your ear  
She's wicked
