

Starving

Perisoft

Tell me where have you been
I was starving the other night
 I was starving today
Tell me where have you been
I was starving the other night
I was starving 'cause I needed youI just can't wait another day
 I want the daysies and the butterflies
 And nothing else can make me stay
 It only drives me all insane
 All insaneI just can't wish another day
 I want a riot and a heart of bliss
 Too many things can make me stray
And drivin'all my friends awayI just can't dream another day
 I want the roses and the buttercups
 And everything that's beautiful
 It only tears me all appart
 All appart
