Breathe

Paula Deanda

Ooh, don't you know
Ooh, don't you know about it
Ooh, don't you know
Ooh, don't you know about it
Give me some time to breathe
Just need ya to believe
That you're the one I need now
Can't you picture me
Give me some time to breathe
Just need ya to believe
That you're the one I need now
Can't you picture me
I just want some time to clear my mind
To figure out what it's all about
I know you've been here through all the times
Happy or sad, good or bad
Every time I turn around
You're the one I always found
Never ever let me down
Never, never, never
Now it's time to see what you really mean to me
Every time I look into your brown eyes
Baby, it's no surprise
Only thing I saw hypnotized
Give me some time to breathe
Just need ya to believe
That you're the one I need now
Can't you picture me
Give me some time to breathe
Just need ya to believe
That you're the one I need now
Can't you picture me
I'm going so crazy lately, oh baby
I'm just a lady, so don't hate me
You know I need ya
(You know I need ya)
Don't wanna leave ya
(Don't wanna leave ya)
But don't wanna be lonely

Just want you to hold me
So hold me closely
Just to be your one and only
'Cause the way you love me
Just feel so real, feel so real
Give me the chills I close my eyes just to realize
You're the one still by my side

Give me some time to breathe
Just need ya to believe
(Need you to believe)
That you're the one I need now
(You're the one I need)
Can't you picture me
Give me some time to breathe
(Some time to breathe)
Just need ya to believe
(Need you to believe)
That you're the one I need now
(You're the one I need)
Can't you picture me
Don't wanna leave ya
Don't wanna leave ya
Don't wanna leave ya
Don't wanna leave ya
Every time I turn around
You're the one I always found
Never ever let me down
Never, never, never
Don't wanna leave ya
Don't wanna leave ya
Give me some time to breathe
(Some time to breathe)
Just need ya to believe
(Need you to believe)
That you're the one I need now
(You're the one I need)
Can't you picture me
(I wanna)
Give me some time to breathe
(Some time to breathe)
Just need ya to believe
(Need you to believe)
That you're the one I need now
(You're the one I need)

Can't you picture me
(Can't you picture me)
Give me some time to breathe
(Give some time to breathe)
Just need ya to believe
(Need you to believe)
That you're the one I need now
(You're the one I need)
Can't you picture me
