

It's Amazing

[Mindy Smith](#)

Baby doll, my baby doll
You're just fine the way you are
So what's the matter? Where's the problem?
They don't love you 'cause they don't know you like I do
Can you see, it's amazing what you do to me
Took my heart and made me feel things I never felt before
It's changing me which direction so certainly
Shook me up and threw me around, helped me learn to breathe it all in
Tiger lily, my tiger lily
You're just wild, you're as wild as they come
So what's the trouble? Where's the problem?
You're just a growing beautiful someone
Can you see, it's amazing what you do to me
Took my heart and made me feel things I never felt before
It's changing me which direction so certainly
Shook me up and threw me around, helped me learn to breathe it all in
When I was afraid to reach out
Oh, when I was the one to run
You came along with a new lease on love
To show me how it's done
Can you see, it's amazing what you do to me
Took my heart and made me feel things I never felt before
It's changing me which direction so certainly
Shook me up and threw me around, helped me learn to breathe it all in
Helped me learn to breathe it all in
