It's Amazing

Mindy Smith

Baby doll, my baby doll You're just fine the way you are So what's the matter? Where's the problem?

They don't love you 'cause they don't know you like I doCan you see, it's amazing what you do to me

Took my heart and made me feel things I never felt before

It's changing me which direction so certainly

Shook me up and threw me around, helped me learn to breathe it all in Tiger lily, my tiger lily

You're just wild, you're as wild as they come

So what's the trouble? Where's the problem?

You're just a growing beautiful someoneCan you see, it's amazing what you do to me

Took my heart and made me feel things I never felt before

It's changing me which direction so certainly

Shook me up and threw me around, helped me learn to breathe it all inWhen I was afraid to reach out Oh, when I was the one to run

You came along with a new lease on love

To show me how it's doneCan you see, it's amazing what you do to me

Took my heart and made me feel things I never felt before

It's changing me which direction so certainly

Shook me up and threw me around, helped me learn to breathe it all in

Helped me learn to breathe it all in
