

Kill My Darling

Oh Land

One more winter
Tongue tied up
One of these words
Can they make it all stop?
Early Sunday, hours too long
Stubborn child won't ever see the midnight sun
Yah yah momma help
Yah yah by myself
Yah yah up hill
Can't carry it [x2]Take me home
Kill my darling, I'm too young to be alone
Out of my lungs
Kill my darling, I'm too proud to let it go
Make it count
Got it worked out
All smiles
Thunderstorms on the inside
See it through
What you gonna do?
Big dreams didn't seem to ever want you [Pre-chorus]
[Chorus]Nanannananna ...
Momma help
By myself...[Chorus]
