

# Dream Girl

## Jeffries Fan Club

When I first met my dream girl  
She was drinking coffee and talking about the world  
I looked in her eyes  
She looked in mine  
And I knew right away  
We were gonna have a good time  
I asked her out on a date  
I said please don't say no, no to fate  
She said yes there's just one thing  
I don't have a lot of money  
But I know how to sing  
She was good enough for me  
That's all she had to be  
I don't need no movie star to make me happy  
Took her to the show  
Didn't watch it though  
But I still enjoyed myself, don't ya know  
I said I think you're beautiful  
She said that's what I've been told  
You might think I'm beautiful but  
I really don't  
When I first met my dream girl  
I was drinking coffee and talking about the world  
I never thought she'd be mine  
But now we're together all the time
