For the Summer

Monokino

Rollin' through these hills I've known I'd be comin'
Ain't a man alive that likes to be alone?
Been a while since I seen my lady smilin'
Have I been, have I been away so long?

I am tired
I am tired

Can I come home for the summer?
I could slow down for a little while
Get back to loving each other
Leave all those long and lonesome miles behind

Through the years I have learned
Some things worth the tellin'
And you'd be right in guessin'
That each and every lesson they were hard won

I am tired
I am tired

Can I come home for the summer?
I could slow down for a little while
Get back to loving each other
Leave all those long and lonesome miles behind

You'll follow her wherever she goes
You love her and you just wanted to know
That you'll follow her, you'll find a way
Cause you love her and you just wanted to know
