

# Danger Zone

## Chiddy Bang

You know me, I'm a upscale character  
Haters, we ain't mad at ya  
To the penthouse we go  
It's time to grind now, so we gotta shine now  
Never take a time out  
Leave 'em in the danger zone  
You know me, I'm a upscale character  
There is not a challenger  
To the front page we go  
It's time to grind now, so we gotta shine now  
Never take a time out  
Now you're in the danger zone  
They in the danger zone  
I'm in a major zone  
They stereotype me, they thought my name Jerome  
Because my skin is dark, I witness art  
Watch me as I come up from the bottom and ascend the charts,  
And then I spark  
I play this right  
Fork in the road, I made a right  
Try to take off while them haters just delay the flight  
I know you watchin' me  
Them other boys sloppy  
My flow is dead on, now where's the autopsy?  
Whores watch me, say hello to my stainless,  
Got my hand in the cookie jar, visions of being famous, I'm saying  
You know me, I'm a upscale character  
Haters, we ain't mad at ya  
To the penthouse we go  
It's time to grind now, so we gotta shine now  
Never take a time out  
  
Leave 'em in the danger zone  
You know me, I'm a upscale character  
There is not a challenger  
To the front page we go  
It's time to grind now, so we gotta shine now  
Never take a time out  
Now you're in the danger zone

Yeah, my composition is remarkable  
I am a molecule, they are just a particle  
And this a article, so you can read all about it  
And are they messing with us? I doubt it  
The road less traveled, I'm sorry I'll reroute it  
And this goes out to everyone that shot me down and doubted  
Now I'm cumulusly clouded  
Serious, higher than a Nimbus  
I swear, I'm on the scene like forensics  
Just check the stylo  
We know heat flow  
Them A&Rs tryin' to find me like Nemo, I mean it  
You know me, I'm a upscale character  
Haters, we ain't mad at ya  
To the penthouse we go  
It's time to grind now, so we gotta shine now  
Never take a time out  
Leave 'em in the danger zone  
You know me, I'm a upscale character  
There is not a challenger  
To the front page we go  
It's time to grind now, so we gotta shine now  
Never take a time out  
Now you're in the danger zone
