

Sweet Thing

The Ovations

Well, when she walks on by she's got that look in her eye

Drop and roll, funk and soul

And if she wants a guy you know she don't have to try

Can't say no, what boy can't say no?

Every since I saw her nothing's ever been the same

I'm feeling like a brand new me

She's the one that I need she could really make my life complete

Wish she were crazy bout me

(Sweet thing)

I will hold you in my arms and make you feel a part of my dreams

(Sweet thing)

I will hold you in my arms and make you feel a part of my dreams

Dreams

Well, she can break your heart, she can tear it apart

With her smile, with her smile

And when she starts to dance she's got you all in a trance

Girl so fine, woo, woo, it's a crime

Everybody wants her, what am I to do?

I know that she don't notice me, wondering should I tell her

I would give her everything

Wish she were crazy bout me

(Sweet thing)

I will hold you in my arms and make you feel a part of my dreams

(Sweet thing)

I will hold you in my arms and make you feel a part of my dreams

Every since I saw her nothing's ever been the same

I'm feeling like a brand new me

She's the one that I need she could really make my life complete

Wish she were crazy bout me

(Sweet thing)

I will hold you in my arms and make you feel a part of my dreams

(Sweet thing)

I will hold you in my arms and make you feel a part of my dreams

(Sweet thing)

I will finally make you mine and wrap you up inside of my dreams

(Sweet thing)

I will kiss you in the night and love you till we both start to scream

(Sweet thing)

Sweet thing
Sweet thing
Sweet thing
