

# Annabelle

## The Kitchen Cabinet

I wake up and I crawl out of bed  
Look in the mirror just to make sure I'm not dead  
I'm still asleep  
When I finally awake  
I pray to whoever that I'm not too late  
Where have I been?  
Please don't take Annabelle away  
Please don't take Annabelle away  
Please don't take Annabelle away  
And if you walk with me,  
I will walk with you  
And if you talk to me,  
Then I will talk to you  
And if you walk with me,  
Then I will walk...  
Look out my window  
And it's kind of dark  
Perfect day for a walk inside the park  
I'll supply the rain  
You ask me, I guess it ain't that bad  
Living life out of a paper bag  
Where have I been?

Please don't take Annabelle away  
Please don't take Annabelle away  
Please don't take Annabelle away

And if you walk with me,  
I will walk with you  
And if you talk to me,  
Then I will talk...

And if you walk with me,  
I will walk with...

Please don't take Annabelle away  
Please don't take Annabelle away  
Please don't take Annabelle away  
Please don't take Annabelle away  
Please don't take Annabelle away  
Please don't take Annabelle away

And if you walk with me,

Then I will walk with you  
And if you talk to me,  
Then I will talk to you  
And if you walk with me,  
Then I will walk with you
