

4 Poisons 3 Words

Emmure

Now I'm walking awayI don't need this, I don't need you
I have no interest to please or appease you
I don't need this, I don't need you
I have no interest to please or appease youI'm done wasting my fucking life
On cowards wasting my fucking time
And if I'm alone in this fight

Then I'm walking away tonightI'm standing on my own two feetI don't need you, I don't need this
I'm ready to die for my beliefs
I'm ready to die for my beliefs
I'm ready to die for my beliefs
I'm ready to die for my beliefsI don't need this, I don't need you
I have no interest to please or appease you
I don't need this, I don't need you
I have no interest to please or appease youI'm done wasting my fucking life
On cowards wasting my fucking time
And if I'm alone in this fight

Then I'm walking away tonightAre you with me in this fight?
Are you with me in this fight?
Are you with me in this fight?Are you with me in this fight?
If not I'm walking away tonight[Incomprehensible]I don't need this, I don't need you
I have no interest to please or appease you
I don't need this, I don't need you
I have no interest to please or appease youI'm done wasting my fucking life
On cowards wasting my fucking time
And if I'm alone in this fight
Then I'm walking away tonight
