

Ouroboros

Sir Cadian Rhythm

I'm just tipsy
Working all day not working for the weekend any more
Your a gypsy wanting more
I'm not worried
Thinking about you, it's true
I don't expect you to
read my mind I'm doing fine with out your help but Once more I slip through the door
You left unlocked for me
I'm not the only one any more Just one drink and I'll be done unless you wanna take me off of this
Bull shit ride 'cuz its no fun
I'm sure your side of this game is great cuz you're in the winning state
To win my heart but my mind says something else cuz Once more I slip through the door
You left unlocked for me I'm not the only one any more
Once more I slip through the door
You left unlocked for me You're so misleading
Now I'm leaving
We're just repeating Once more I slip through the door
You left unlocked for me
Once more I slip through the door
You left unlocked for me I'm not the only one any more
Once more I slip through the door
You left unlocked for me
