

The More You Do It (the More I Like It Done To Me)

Natalie Cole

Now this is for the old school
You keep kissing me and squeezing me, boy
All the time and I like it, baby
And the way you do it
Keeps driving me out of my mind, yes, it does
'Coz you keep on kissing me with your kiss
Touching me with your touch
All the right places and I like it
And the more you do it
The more I like it done to me, I like it, baby
Oh, there's no better feeling
Then when your body's next to mine
Moving and grooving
And when we're not together
I think about you all the time, yes, I do boy
'Coz you keep on kissing me with your kiss
Touching me with your touch
You reach out and feel me with your hands
I like it, I like it so much
And the more you do it
The more I like it done to me
Oh, I like it, baby

I said the more you do it
The more I like it done to me
I like it, baby
I like it, baby
I just want to tell the world
Of how I feel about you, baby
'Coz you keep on kissing me with your kiss
Touching me with your touch
Healing me with your hands
I like it, I like it so much
And the more you do it, the more I like it done
The more you do it, the more I like it done
And the more you do it, the more I like it done to me
And the more you do it, the more I like it done
The more you do it, the more I like it done
And the more you do it, the more I like it done to me

The more you do it, the more I like it done
The more you do it, the more I like it done
And the more you do it, the more I like it done to me
The more you do it, the more I like it done
