

# Re: Birth

## Us, Ghosts

I opened my eyes and saw the dead man that I've become,  
My head is in the clouds yet my body's in the ground.  
I need to find my way out of this hole I've dug so deep,  
In sight of my own fate I emerge a bird of flame.

This time, I'll show you.  
I won't fall to you.

I am the alpha and omega,  
The first and the last,  
Beginning and the end.  
Reigniting the flame.  
Once smoke, I am not the same.  
The curtain has risen, The road has been paved.  
I've been buried for so long,  
Who I thought were my brothers have left and gone.  
I've been digging my own grave,  
It's time to climb and reach the sun

Awake oh sleeper  
Rise from your cradle,  
The time has slipped from your hands.  
Come and be a man.  
My time has come  
To put an end to this masquerade.  
I opened the door, I stepped on the stage.  
The locks have no worth here, I'm finally free.  
I opened my eyes  
I saw all the demons I've masked all my life.  
The path has been set, My intentions are clear.  
They'll never stop me, I'll leave them in fear!

You broke affectations,  
You saw the illusion.  
This time I'll show you I will not fall to you,  
Just look in my eyes and you'll know that I'm free.
