Country Boy

Calvin Richardson

Just because I wasn't raised in a mansion on a hill And most my time is spent on a tractor plowing in the field
I'm still a man as a matter of fact, so you know just how I feel.
I believe in working from sun up to down.
Like any man I need a good woman to settle down with___.Cause country boys need love too
Country boys need love toYes I believe in love
Call me old fashion if you want to
Cause I take off my hat just as long as I'm in her presence
And until you sit I can't sit down
I believe in working from sun up to down.
Like any man I need a good woman to settle down with___.Cause country boys need love too
Country boys need love toGirl it's you in my life that makes want to grow old
And I know in order for me to keep you here I must be strongCause country boys need love too (1)
Country boys need love to (3X)
