

# Be Less Rude

## Frightened Rabbit

Oh this is what we need  
A line in the sand  
I would cross to here  
Before the tide comes in And you should be less rude  
You don't know what it might do for you  
I'd be less rude to you  
We might just get along too You sit on your high horse  
And you spout your high horse shit  
I'm afraid you've been misled  
Your high horse in fact's a pony Oh you should be less rude  
You don't know what it might do for you  
I'd be less rude to you  
We might just get along too I'll take that back now take that back  
You should take that back, back, back Oh and you should be less rude  
You don't know what it might do for you  
I'd be less rude to you  
We might just get along too.
