Reality

Big Dismal

Every now and then
I need some time to myself
I need some time to think
So I can breatheCause out here in the world
You know some things will never change
Youre just another number
With a faceSo dont fool yourself
Into believing what you see
Its only illusions
A prodigyI can feel you running through me
Its in my mind and Im thinking clearly
I cant tell what it is that you do to me
Just look into my eyes and you will see
RealityThrough the years Ive learned
Its so hard to find
Something to believe in
Peace of mindSo dont fool yourself
Into believing what you see
Its only illusions
A prodigy
