On Your Honor

Amy Ray

I have a picture, fist in the air
I'm standing behind you, now I am still here
Mining your body, scene of a crime
Do you one more favor, killing your blood lineYeah well I'm here to relieve
The ones that fought for you and fought for me
Yeah I want to relate, put away your hate
Put away your hateBreath of the night jar, stars in the sky
A killer for comfort, I'm not gonna lie to you
Paid off the piper with a government gun
Whoever you came for left all aloneYeah I'm here to relieve
The ones that fought for you and fought for me
Yeah I want to relate, now put away your hate
Put away your hateOur father's house, is a house of regret
Rooms I can't sleep in, jokes I don't get
You're on your honor to be on my side
I said surely there are some things that won't be deniedYeah but I'm here to relieve
The ones that fought for you and fought for me
I said yeah I want to relate, now put away your hate
Put away your hateI said yeah, I'm here to relieve
The ones that fought for you and fought for me
I said yeah, I want to relate, put away your hate
Put away your hate
