Outstretched Hands

Starfield

Could I talk to You? Are You listening?
Would You let me ask the questions
That burn inside of me?
I am reaching out, I am holding on
Feel like one of Your affections
But not quite like I belong
Like I belong
I am numb today, everything's a blur
I've seen too much to deny
Too little to be sure
Like a prodigal, like a distant son
I can see You from a distance
But I'm too ashamed to come
Will You see me through this valley?
Will You hold my outstretched hands?
As the world caves in around me
Will You help me understand?
Help me understand, help me understand
I am scared to fall, scared to carry on
Am I losing to the cynic after running for so long?
There's a child in me, lost in mystery
But it's buried underneath the earth longing to be free
Will You see me through this valley?
Will You hold my outstretched hands?
As the world caves in around me
Will You help me understand?
Will You see me through this valley?
Will You hold my outstretched hands?
As the world caves in around me
Will You help me understand?
Will You see me through this valley?
Will You hold my outstretched hands?
As the world caves in around me
Will You help me understand?
Help me understand, help me understand
Help me understand, let me hold you [Incomprehensible]
Help me understand, yeah
Help me understand, yeah yeah
Help me understand, yeah
