Flowing Glower

Deadsy

Now you know
Places where I live
When I couldn't grow
Downward you'll soon drift
On the sail less boat
Nothing left to give
All I see is throatFlowing glower
Witless knower
Seedless sowerIf it's all a lie
Will you realize?Right before we die
My soul leads to the wrong
Changeling of the night
Now that I bleed a song
Purely based on fright
Sad with my face so long
I have this new sightFlowing glower
Witless knower
Five steps lowerIf I tell a lie
Will you realize?Numb the pain
Way high and real low
Now it feels the same
Have love or feel so
Hollowed out with shame
Hoping to see the day
With my brand new nameFlowing glower
Seedless sower
I'm bipolarIf I die tonight
Will you be alright?Then in time you'll find
Thirst becomes boring
Quest your heart and mind
Now that we're soaring
Over space and time
Done with exploring
All you are is mineFlowing glower
Ruthless flower
Breathless blowerIf it's all a lie
Will you realize?Seek and you shall find
Everything inside
Read between the lines

I'll show you the light
Here in the afterlife
