

# See the Sun

## Brand New Sin

A long time  
He sat there  
Realize now  
You're holding on too fast  
Slow it down, slow it down  
Hold it down  
Look around  
See what you found yeahSee the sun shiningA long time  
It's been that way  
Realize now  
Times change but still it stays  
Telling lies, telling lies  
Alibis  
You still deny  
You have survivedThe peaceful mind  
The smoking gun  
Out of dark  
I'm on the run  
I am the one  
The chosen one  
I see the sun  
I see the sun
