

# Other Girls

[Michelle Malone](#)

I wish I were like the other girls  
With a simple life in a simple world  
Marriage, children, picket fence  
Speak softly and act demure  
But Im not like the other girls  
Other girls wish they were like me  
Carefree rock star royalty  
Jet set, penthouse, hot chauffer  
Can I get a ticket to that dream  
Damn, I wish that girl were me  
CH: Other Girls, Other Girls  
Every woman is the other girl  
Everywhere around the world  
Every woman is the Other Girl  
Other girls smile get what they want  
No speeding tickets for a buxom blonde  
Or a red head built like the atom bomb  
got a jiggle in her walk and a twinkle in her eye  
yea, the other girls make me feel like a guy CH
