Caught in the Middle

Charli XCX

Our hearts got caught in the middle
Caught in the middle of love
Our hearts got caught in the middle
Caught in the middle of loveTook the plane at five, flew across the world, I'm the other girl
The one who's in your head
Laid there by your side in the city nights, naked in the lights
Hiding secrets in your bed'Cause we try to turn around but we can't stop it now
Our hearts got caught in the middle, caught in the middle of love
You're stuck on my mind push restart, press rewind
Our hearts got caught in the middle, caught in the middle of love
Our hearts got caught in the middle, caught in the middle of loveLost inside the line, stare across the room, almost falling through
Never make the same mistake
Harder every time, wish we could be true, always wanted you
We got to stay a mysteryOh, I'm caught in the middle, caught in the middle of'Cause we try to turn around but we can't stop it now
Our hearts got caught in the middle, caught in the middle of love
You're stuck on my mind push restart, press rewind
Our hearts got caught in the middle, caught in the middle of love
Our hearts got caught in the middle, caught in the middle of love
Our hearts got caught in the middle, caught in the middle of loveOh, I'm caught in the middle, caught in the middle of (Caught in the middle of)
'Cause we all are caught in the middle, caught in the middle of (Caught in the middle of)
'Cause we all are caught in the middle, caught in the middle of (Caught in the middle of)'Cause we all are caught in the middle, caught in the middle of (Caught in the middle of)
'Cause we try to turn around but we can't stop it now
Our hearts got caught in the middle, caught in the middle of love
You're stuck on my mind push restart then press rewind
Our hearts got caught in the middle, caught in the middle of love
Our hearts got caught in the middle, caught in the middle of love
Our hearts got caught in the middle, caught in the middle of love
