Waiting for the Sun (feat. Ashley Marie)

Approaching Nirvana

If you believe in love
then we could make it better
and I will stay with you
and we will live foreverWe're waiting for the sun
to fill us with the light
We're waiting for the sun
to bring us back to lifeIf I could have your love
then we could make it better
and you would keep me close
and we will live foreverWe're waiting for the sun
to fill us with the light
We're waiting for the sun
to bring us back to life
