Represent Me

Ciara

I'd like to introduce myself
My name is Ciara
I'd like to introduce myself
My name is Ciara
I'm givin' props to the people that help me out
And right now I'ma take the time to shout out
Riverdale, North Clayton and all of my hatas
I finally made it and I won't stop
It feels funny to hear the world say my name
I'm makin' money, I'm still the same, I won't change
And if you down with me stick around with me
'Cuz I'ma hold you down and that's no doubt and I
I want my hood to represent me
I want you to represent me
To all my girls that represent me
Around the world to represent me
I want love to represent me
I want us to represent me
To all my girls that represent me
Around the world to represent me
It's all love when we hangin' out on my team
I'm here for you I help you out in your dream
If you got a struggle then we got a struggle
'Cuz we love one another and keep in peace
And to my family I know that y'all got my back
'Cuz when I need you, you'll be there just like that
And I'll be down for you 'cuz you down for me
And I'ma hold you down and that's no doubt

I want my hood to represent me
I want you to represent me
To all my girls that represent me
Around the world to represent me
I want love to represent me
I want us to represent me
To all my girls that represent me
Around the world to represent me
I want New York and Miami
And all of Atlanta hometown to represent me

Cali, Alabama and all of Ohio
Chi town, to represent me
To all the girls and the fellas that got my back
Much love and I promise I'll give it back
It's all good when you try it, there's no other like it
You should represent me, alright
I want my hood to represent me
I want you to represent me
To all my girls that represent me
Around the world to represent me
I want love to represent me
I want us to represent me
To all my girls that represent me
Around the world to represent me
Everybody say it's all good when you rep your hood, yeah
It's all good when you rep your hood, yeah
I'd like to introduce myself
My name is Ciara
