

# Shine

Alexi Murdoch

I wonder why  
We are the way we are  
Yes I wonder why  
We are the way we are  
And why  
We only love each from afar This is how we are fighting  
This is how we are fighting  
Time  
Time You spend your days  
Watching the door  
Yeah you spend your whole life waiting  
But you don't know what for  
You have everything you need right here  
Still you want more Oh this is how we are fighting  
This is how we are fighting  
Time  
Time Well I didn't come here  
Looking for a soul  
And I'm tired of watching dust  
Collecting on a bowl  
I'm a spirit trying to be human  
I'm just a spirit trying to be human But I'm thinking this is how we are fighting  
This is how we are fighting  
Time  
Time You hold on to yourself  
You're afraid that you might  
Get left behind And so you hide your eyes  
You're afraid that the light  
Will make you blind But it's time  
It's time to shine Yes it's time to believe in what you know  
Time to believe in what you know  
Time to believe in what you know  
And you don't need strength to be strong  
Time to believe in what you know  
No you don't need strength to be strong  
Time to believe in what you know  
Time to believe in what you know  
Time to believe in what you know  
time to believe in what you know Time to believe before you go
