## Legacy

I'm elevated [I've become a whore so I prepare to breathe]

I'm stimulated [I'm becoming sworn to you for secrecy]

I'm re-created [anything you want I will forever be]

I'm glad you made it

Spiritualize my sensuality, in your eyes, between you and me

You're elevated [connected to the depths of the seven seas]

You're stimulated [I can feel your pulse and now it's part of me]

I'll be creative [anything you want I will forever be]

For you I'll save it

Spiritualize my sensuality, in your eyes, between you and me

I can't evade it

You're all I've needed

I am created

This has been a hell of a trip.
