

Heart Be Still

Deee-Lite

There's a cause for me to pause
cause in our love there is a clause
cause we belong to other hearts
 Hold me back
 Hold me back
 Hold my will
 Heart be still
You seem better than candy
 My sugar dandy
I've got to stand back from the heat
 Hold me back
 Hold me back
 Hold my will
 Heart be still
 Heart be still
Where we'll go no one knows
I feel weak when you do speak
It's like a rollercoaster at it's peak
 Hold me back
 Hold me back
 Hold my will
 Heart be still
 Heart be still
I've got to get back
 I've got to get back
I've got to get back on my feet
 Just let me say my say
 You're a friend I wanna keep
 Where we go no one knows
Our unsaid love could be a scream
 The finest dream I've ever seen
Your charm grabbed me by the arm
 I've got to get back
 I've got to get back
I've got to get back on my feet
 I've got to get back
 I've got to get back
 Just let me say my say
 You're a friend I wanna keep
