S.O.N.

Tamar Braxton

I don't wanna be like this

I don't wanna fight

I don't wanna just shut down

Gotta make it right

Do this with me, please babe, please babeWhy when we argue

We can't even disagree?

How did we end up in a fight?

(Really) really

(Really) really

(Really) really

When it ain't even that serious babe

All I wanna do is make it right

(Feel me?) feel me?

(Feel me?) feel me?

(Feel me?) feel me?

And I so understand that you're a man

But you're caught in you're feelings

At the same time I'm a woman who's willing

To say I fucked up (yeah)

And you know that it's tough for me

But I'd rather lose this argument

Instead of losing you

You know you like it when we makin' up

Now losing is toughWe already know you ain't gon' leave

So stop acting like you got the power (oh yeah)

While I'm in the shower (oh yeah)

We already know where you gon' be

Boy stop frontin' and let's make this movie (oh yeah)

Starring this bootyI want sex over nonsense

Sex over nonsense

I want it, I want itI don't wanna be like this

I don't, I don't wanna just shut down

Gotta make it right

Do this with me, please babe, please babeI ain't trynna do this wrecking ball

All it make me do is want you more

Save your energy for all my healing

(Healing) healing

(Healing) healing

(Healing)

'Cause I know your pride

You be mad trippin' for the rest of the night

'Cause you caught up being mr. Right

(Right) right

(Right) right

(Right)

And I so understand that you're a man

And you wanna be winning

At the same time boy you damaged my feelings

'Cause we both messed up (yeah)

And doing way too much, don't we?

So baby get in this room

I got your favorite treat waiting for you

You know you like it when we makin' up

Now losing is toughWe already know you ain't gon' leave

So stop acting like you got the power (oh yeah)

While I'm in the shower (oh yeah)

We already know where you gon' be

Boy stop frontin' and let's make this movie (oh yeah)

Starring this bootyI want sex over nonsense

I want it, I want it
