Come On (Let the Good Times Roll)

Steve Miller Band

People see me but they just don't know
What's in my heart and why I love you so
I love you, baby like I might not loves God
Come on, baby, let the good times rollLet it roll, let it roll, babyLove is nice when it's understood
It's even nicer when the feeling's good
You got me flipping like a flag on a poll
Come on, baby, let the good times rollFeels like a good timeSo many people live in make believe
They keep a lot of dirt up their sleeve
My love, baby's not the kind that fault
So come on, baby, let the good times rollLet it roll, let it roll, baby
Feels like a good time
