Don't forget me

GreyÂ´s anatomy

In the wintertime keep your feet warm
But keep your clothes on and don't forget me
Keep the memories but keep your powder dry too
In the summer by the pool side
While the fireflies are all around you
I'll miss you when I'm lonely, I'll miss the sunshine too
No, don't forget me, please don't forget me
Make it easy on me just for a little while
You know I'll think about you, I hope you think about me too
When we're older and little slower
It doesn't matter now, come on get happy
'Cause nothing lasts forever but I will always love you
No, don't forget me, please don't forget me
Make it easy on me just for a little while
You know I'll think about you, I hope you think about me too
