Grandma

Craig Cardiff

grandma says to the boy everything has its time
everyone's time must end
i thanked her for the checker games all the coffee talk
and said i'm glad to have you as a friendshe says true love can never be a weapon
good friends are so hard to find
o and keep your nose clean and watch before you cross the street
everything will be fine.anything worth having is never easy
the pain is only a sign
if you can just push through and
make it out of bed
everything will be fineshe says true love can never be a weapon
good friends are so hard to find
o and keep your nose clean and watch before you cross the street
everything will be fine.
