What Have We Got?

Sham 69

What have we got
What have we got
What have we got
What have we gotThey've taken everything
There'll soon be nothing left
Soon we'll be walking the street
With nothing on our feetWhat have we got
What have we got
What have we got
What have we gotI'd like to buy a shotgun
Shooting MPs conservatives, communists
They're all the bleeding sameWhat have we got
What have we got
What have we got
What have we gotI don't really care no more
I don't care at all
A black man's black and a white man's white
But we're all the bleeding sameWhat have we got
What have we got
What have we got
What have we got
