Four Letter Word

Uncle Kracker

You spark the stars, you wear a smile
Like every day's your birthday

Summertime is in your eyes, even on a rainy Thursday
Look at you, spinning around
Like the world's your merry-go-round
And there's no stopping you now

Wherever you are, I hope that you're laughing
Whoever you're with, I hope that you're having
The time of your life and everything's right
Whatever you wish, I hope that you get it
When love walks in, I hope that you let it
And baby be glad when you look back at me
I'll never be sad as long as you're happy

You leave your mark on every heart
If no one ever tells ya
So paint your name on the rain
The world is your umbrella

Look at you spinning and spinning
Sometimes goodbye is just the beginning

Wherever you are, I hope that you're laughing
Whoever you're with, I hope that you're having
The time of your life and everything's right
Whatever you wish, I hope that you get it
When love walks in, I hope that you let it
Baby be glad when you look back at me
I'll never be sad as long as you're happy

Look at you, spinning around
Your feet don't even touch the ground

Wherever you are, I hope that you're laughing
Whoever you're with, I hope that you're having
The time of your life and everything's right
Whatever you wish, I hope that you get it
When love walks in, I hope that you let it

Baby be glad when you look back at me
I'll never be sad, I'll never be sad

Wherever you are, I hope that you're laughing
Whoever you're with, I hope that you're having
The time of your life and everything's right
Whatever you wish, I hope that you get it
When love walks in, I hope that you let it
Baby be glad when you look back at me
I'll never be sad as long as you're happy
