

Millennium Fever

Apollo 440

Herr God, herr Lucifer
Out of the ashes I rise
The end of my century's sundown
Burnt into my eyesBackward thinking didn't get me
Where I am today
I been dreamin' of freezing my mind
In Californi-I-AHey cyberchrist cardiac-hero
From the ashes I ride
We know the meaning of life
It's in the scream
Of my bottleneck-slideBackward thinking didn't get me
Where I am today
Get a Harley, get a hard on
Get a ride out of the U.S. of A.Staring at the sun
Waiting for my time to comeMillennium fever
Millennium feverWhat are you doing after the orgy?
