Really Love You

Jonzie

Well, I need you through the night
When morning comes I love the light.
But in the night-time that dark is black
Come on baby you got to help me get backI love you, oh yeah
I really love you, oh yeah
Ooh ooh ooh oohDo one thing, do one thing for me
If you've got love then let me see
If you feel it in your heart then show it right now
You know I love you baby, I gotta get to you, get to you somehowOh yeah, I really love you
Oh yeah, I really love you
You know it's trueI really love you day and night
Yeah, I really love you in the morning light
I really love you, sure be right
Come on little baby gotta find out somehowYeah, yeah, really love you
Oh yeah, really love youI love the things you say and do
I can't get over how much I love you
You know you do something special to me
And that's the way I want it always to be, yeahOh yeah, I really love you
Oh yeah, I really love youI need your love like a bear needs a break
I need your heart, baby hopping on a plate
I need the sunshine of your smile
Help me walk, help me walk that extra mileLittle baby, I love you
Oh yeah, you know I really love you
Oh yeah, you know it's true
Oh yeah, I love you
